Dear Men's Health Network:

I am pleased to recognize September 2016 as "Prostate Cancer Awareness Month" in the state of Montana.

One in seven men in America will be diagnosed with prostate cancer, making preventative healthcare even more important as we grow older and live longer. I commend you and the Men's Health Network for your advocacy towards positive health attitudes for males, both young and old.

Thank you for your efforts to educate the public about the importance of cancer prevention and early detection. I encourage all Montanans to recognize September 2016 as "Prostate Cancer Awareness Month."

Sincerely,
